Junior Web Developer with 2.5 years of experience in building user-focused web applications using ReactJS, NextJS, and ExpressJS. Proficient in MySQL, PostgreSQL, and creating cross-platform apps with ElectronJS and Cordova. Skilled in GitHub version control and deploying applications via Vercel.

WORK EXPERIENCE

Junior Web Developer   Jan 2023 – Present
Crisfood Online LLP, Bhiwandi.

- **Crisfood Admin Panel Development**: Designed and developed components for the admin panel with RESTful API integration and server-side PDF invoice generation, automating tasks and enhancing data accuracy.
- **Cross-Platform Desktop Application**: Built a cross-platform desktop app using **ElectronJS** and React, integrating real-time APIs and managing bundling, building, and deployment for seamless operation across platforms.
- **Hybrid Android Application**: Packaged a React app with **Cordova** for **Android**, handling setup, configuration, and deployment to extend functionality from web to mobile
- **Progressive Web App(PWA)**: Developed a PWA for the admin panel with offline functionality and efficient caching using Service Workers, ensuring a smooth user experience even without internet.
- **AI Dashboard Panel Development**: Created the front-end for an AI dashboard with features for managing documents, databases, and sessions through a centralized AI chat interface, improving efficiency and usability.

FREELANCE EXPERIENCE   Sep 2022 – Dec 2022

- **Angular to ReactJS Migration**: Led the complete migration of an existing Angular dashboard to ReactJS, optimizing performance, scalability, and user experience. Applied modern UI/UX principles to deliver an improved, responsive, and efficient dashboard interface.

Front-End Web Developer Intern   Jun 2022 – Aug 2022
Crisfood Online LLP, Bhiwandi.

Completed three months internship program in web development.
- Aquired hands on training from basic to intermediate front-end technologies including JQuery and ReactJS.
